COMPONENT REPORT

well aligned with the supplied brief for this workshop; the vocal quality is exactly what George Fenton's scores typically require.

Verdict: Strong for this levelReliability: high (ok)

Prioritised fixes

Sharpen the 'Wit' and 'Warmth'

The brief specifically mentions 'easy going warmth and wit'. Highlighting this in the dialogue will better align with the character description.

Dynamic Storytelling in Song

The vocal is technically very strong; adding more specific emotional shifts in the phrasing will make it a standout 'acting-through-song' piece.

Why this score

What works, why it isn't 100, and what would close the gap.

ACTING / PERFORMANCE

Works: Naturalistic delivery and excellent eyeline discipline. You stay within the frame while maintaining a sense of space.

Why not full score: The energy level is a bit static across the scene; it needs more of the 'talented musician' spark.

Close the gap: Deepen the 'lost in love' aspect mentioned in the brief. Allow the thoughts of Frankie to land more heavily during the silences in the scene.

Standout delta: Finding more 'wit' in the dialogue—letting the easy-going warmth feel like a choice she makes to hold her own.

VOCAL PERFORMANCE

Works: Beautifully supported tone and clear diction.

Why not full score: A few phrases could benefit from more specific lyric-driven choices rather than just melodic ones.

Close the gap: Ensure the 'contemporary' side of 'contemporary legit' is present in the phrasing—avoiding anything too 'classical' in the vibrato.

Standout delta: More dynamic variation in the mid-section of the song to show off the 'range' requested in the brief.

Category scores

Discipline-aware labels. Backend score keys are unchanged.

Acting / performance

88

The acting is grounded and natural, though the transition between the high energy of the 'signature move' opening and the internal 'sea of love' could be more distinct.

Vocal performance

92

Excellent control of the legit style. The placement is consistent and the storytelling through the song is a highlight.

Audio clarity	90
Clean, professional audio with a good balance between the vocal and the accompaniment. No clipping or distracting background noise.	
Technical setup	90
Solid landscape 720p footage. Lighting is clear and even, ensuring the eyes are well-lit for the close-up framing.	
Brief adherence	97
Full compliance with the brief, including the specific side requested and the contemporary legit song choice.	
Professional presentation	94
The slate is clear and professional, and the framing remains consistent throughout both components.

Strengths

- ✓ Excellent contemporary legit vocal technique with a clear, supported tone.
- ✓ Clear and professional slate/ident.
- ✓ Good eyeline discipline, keeping the focus on the internal thoughts of the character.

Improvements

- ➔ Increase the energy of the 'signature move' opening to show the 'talented musician' spark.
- ➔ In the song, find more specific 'acting-through-song' moments where the character's internal 'sea of love' is visible.
- ➔ Ensure the transition from the ident to the scene is as tight as possible to grab attention immediately.
- ➔ Experiment with a slightly more 'contemporary' phrasing in the song to balance the legit technique.
